### Market Update:

- High Yield Bonds returned +4.6%<sup>(8)</sup> in November, bringing YTD performance to +9.4%. Risk assets saw positive performance in November as benign inflation data, dovish Fed rhetoric, and resilient growth caused investors to position for earlier cuts by mid-2024. The High Yield asset class was further impacted by a two week stretch of positive inflows totalling \$10.7bn, the second largest on record. Spreads and yields tightened alongside positive economic data.
- Loans performance of +1.2%<sup>(9)</sup> in November lagged the rate induced rally in high yield bonds. The loan asset class also experienced steady retail inflows and the second heaviest CLO origination of the past 18 months. YTD performance stands at +11.5%.

### Dividend Update:

- KKC declared a distribution of A\$0.017 (0.71% of NTA) for the month. This is in line with the announced FY24 distribution estimate of A\$0.20. As of 30 November, ASX Unit Price of A\$2.12, this represents a yield of ~9.45%<sup>(2)</sup>.

### Portfolio Update:

- European Direct Lending (EDL) had no new additions over the month. There was one realization, a Singapore based Education Services business. EDL represents ~44% of KKC's portfolio invested across 39 assets as at month end.
- The weighted average price of the underlying KKC assets in the portfolio stood at 93.1% of par as at month end. The Yield to Maturity, which is inversely related to prices, stood at 11.6% and the current yield of the underlying assets in the portfolio was 10.2%<sup>(3)</sup>.

## Monthly Investment Update: As of 30 November 2023

### KKC Overview

The Trust aims to provide investors with attractive, risk-adjusted returns and access to a diversified portfolio of income generating alternative credit investments through the Trust's investment across strategies managed by the credit investment teams of Kohlberg Kravis Roberts & Co. L.P. ("KKR").

These strategies comprise the Global Opportunistic Credit strategy and European Direct Lending strategy, which seek to take advantage of the attractive opportunities that KKR sees in the market. The Trust's investment objective is to provide an income stream as well as to achieve attractive long-term capital appreciation over a full market cycle.

KKC has announced that for the financial year ending June 2024, KKC is targeting a distribution of +8.6% based on the issue NTA per unit of A\$2.3308<sup>(2)</sup> (20.0c per year). The Trust continues to target a medium-term average total return of 6% - 8% per annum<sup>(5)</sup> through the market cycle.

The Trust is appropriate for investors seeking income distribution to be used as a satellite allocation within a portfolio where the investor has a 5+ year investment timeframe and a medium to high risk/return profile. Investors should refer to the Target Market Determination ([TMD](#)) document for further information.

### KKR Overview

Established in 1976, KKR is a global investment firm with industry-leading investment experience, a pioneering attitude to ESG management and a strong culture committed to teamwork.

As of 30 September 2023, KKR had A\$820.7 billion of assets under management, of which A\$314.6 billion sits within KKR Credit.<sup>(6)</sup>

KKR has a global presence with offices in 24 cities across 4 continents, including Sydney, Australia. KKR employs approximately 170 investment professionals in the Credit business.

KKC represents the largest pool of capital for KKR's Australian business and KKR now has two permanent members of its Client Partner Group based in Sydney. The Client Partner Group is responsible for client and market engagement across KKR's breadth of funds and strategies

## Monthly Investment Update: As of 30 November 2023

### Footnotes

- (1) Distribution % calculated as the distribution per unit divided by the closing NTA of the previous month. The multi period calculations sum the dividend yields received and does not compound them.
- (2) Net of fees and expenses incurred by the Trust, but before tax. The target distribution is only a target and may not be achieved. All investments are subject to risk which means you may lose all or a portion of the amount you invest or you may otherwise achieve distributions and returns that are lower than any target distribution or target return. Before making an investment decision, it is important to understand the risks that can affect the value of your investment. Investors should read the risks described in Section 8 of the PDS.
- (3) Represents KKR estimates of the yields of the portfolio's underlying assets, excluding cash, as of 30 November 2023.
- (4) Source: KKR as of 30 November 2023. Credit ratings are statements of opinion of a relevant credit agency about the likelihood of a borrower to meet its interest and principal payment and repayment obligations when they fall due. Credit ratings are not statements of fact or recommendations to purchase, hold or sell securities. Credit ratings do not address the suitability of securities or the suitability of securities for investment purposes, and should not be relied upon as investment advice.
- (5) Target medium-term average total return net of fees and expenses incurred by the Trust, before tax. The distribution yield over a given period may be lower than the total return in this period to the extent that the total return includes unrealised gains. Investors should review the Risk summary set out in Section 1 and Section 8 of the PDS for important information regarding Target Total Returns and the Trust's ability to achieve them. Past performance is not indicative of future results.
- (6) The KKR Credit group is comprised of KKR Credit Advisors (US) LLC, KKR Alternative Investment Management and KKR Credit Advisors (EMEA) LLP. AUM is updated quarterly in line with KKR's public filings.
- (7) This is a summary only – see section 9 of the PDS for more detail.
- (8) High Yield Bond returns represented by ICE BofA US High Yield Master II Index.
- (9) Leveraged Loan returns represented by Morningstar LSTA US Leveraged Loan Index.
