Portfolio Update:

- KKC delivered a +1.78% return in September. High Yield bonds outperformed Loans over the month and CCC rated assets drove performance across asset classes.
- The weighted average price of the underlying KKC assets in the portfolio stood at 98.1% of par as at month end. The Yield to Maturity, which is inversely related to prices, stood at 9.0% and the current yield of the underlying assets in the portfolio was 9.2%⁽³⁾.
- European Direct Lending (EDL) had no new additions or realizations over the month. EDL represents ~46% of KKC's portfolio invested as at month end. A case study on one of our EDL deals can be found on page 3.

Distribution Update:

- KKC declared a distribution of A\$0.0167 (8.08% of NTA) for the month. This is in line with the announced FY25 distribution estimate of A\$0.20. The distribution guidance for the year ending 30 June 2025 will keep the monthly distribution target unchanged at A\$0.0167 per unit per month, or A\$0.20 per annum. As of 30 September, ASX Unit Price is A\$2.30, this represents a yield of ~8.70%⁽²⁾.

Market Update:

- High Yield bonds returned +1.63%⁽⁸⁾ in September, driven by the Fed delivering a 50bps rate cut with 3rd quarter growth tracking above consensus amid a resilient consumer. Loans returned +0.71%⁽⁹⁾ in September despite the downward path of rates. Issuance was robust across Leveraged Credit markets with High Yield bond issuance reaching a 3-year high and Leveraged Loan volumes outpacing any prior September on record.

Portfolio Case Study

Company Overview

- Alcumus Group Ltd (“Alcumus”) is a leading United Kingdom based provider of contractor and supplier accreditation, ISO certification and EHS software solutions.
- The company serves ~40,000 SME and enterprise clients in the United Kingdom, Canada and United States operating through three segments (EHS Software, Supply Chain Compliance and Certification) each constituting complementary businesses with cross-sell opportunities within the customer base.

Transaction Overview

- In February 2022, Apax Partners (“Apax”) won an auction to acquire Alcumus at an estimated EV of ~£660 million (~21x 2022E Pro Forma EBITDA).
- KKR Private Credit had tracked the asset since late 2021 given its similarity to an existing investment in a United Kingdom peer and reached out to Apax regarding the financing opportunity following their successful bid.
- KKR Private Credit has a long-standing relationship with Apax, having previously backed the sponsor on numerous deals.
- Our investment thesis was based on Alcumus’ attractive financial profile with double-digit historical organic growth, 90%+ recurring revenue with strong retention, robust margins and cash conversion. This is supported by the company’s leading market position for each core business unit in sectors with long-term tailwinds from increased focus on EHS compliance, significant remaining whitespace (continued outsourcing trend) and a highly diversified customer base.

Capital Structure at Investment

Based on Pro Forma 2022E Run Rate EBITDA of £32 million

(1) Equity cheque potentially reduced by HoldCo PIK loan in which KKR did not participate.

(2) 50% of margin can be PIK'ed for 24 months subject to a 25bps premium.

KKR Credit Income Fund (ASX:KKC)

Monthly Investment Update: As of 30 September 2024

KKC Overview

The Trust aims to provide investors with attractive, risk-adjusted returns and access to a diversified portfolio of income generating alternative credit investments through the Trust's investment across strategies managed by the credit investment teams of Kohlberg Kravis Roberts & Co. L.P. ("KKR").

These strategies comprise the Global Opportunistic Credit strategy and European Direct Lending strategy, which seek to take advantage of the attractive opportunities that KKR sees in the market. The Trust's investment objective is to provide an income stream as well as to achieve attractive long-term capital appreciation over a full market cycle.

KKC has announced that for the financial year ending June 2025, KKC is targeting a distribution of +8.6% based on the issue NTA per unit of A\$2.3308⁽²⁾ (20.0c per year). The Trust continues to target a medium-term average total return of 6% - 8% per annum⁽⁵⁾ through the market cycle.

The Trust is appropriate for investors seeking income distribution to be used as a satellite allocation within a portfolio where the investor has a 5+ year investment timeframe and a medium to high risk/return profile. Investors should refer to the Target Market Determination ([TMD](#)) document for further information.

KKR Overview

Established in 1976, KKR is a global investment firm with industry-leading investment experience, a pioneering attitude to ESG management and a strong culture committed to teamwork.

As of 30 June 2024, KKR had A\$902.1 billion of assets under management, of which A\$354.9 billion sits within KKR Credit.⁽⁶⁾

KKR has a global presence with offices in 26 cities across 4 continents, including Sydney, Australia. KKR employs approximately 165 investment professionals in the Credit business.

KKC represents the largest pool of capital for KKR's Australian business and KKR now has three permanent members of its Global Client Solutions team based in Sydney. The Global Client Solutions team is responsible for client and market engagement across KKR's breadth of funds and strategies.

Footnotes

- (1) Distribution % calculated as the distribution per unit divided by the closing NTA of the previous month. The multi period calculations sum the dividend yields received and does not compound them.
- (2) Net of fees and expenses incurred by the Trust, but before tax. The target distribution is only a target and may not be achieved. All investments are subject to risk which means you may lose all or a portion of the amount you invest or you may otherwise achieve distributions and returns that are lower than any target distribution or target return. Before making an investment decision, it is important to understand the risks that can affect the value of your investment. Investors should read the risks described in Section 8 of the PDS.
- (3) Represents KKR estimates of the yields of the portfolio's underlying assets, excluding cash, as of 30 September 2024.
- (4) Source: KKR as of 30 September 2024. Credit ratings are statements of opinion of a relevant credit agency about the likelihood of a borrower to meet its interest and principal payment and repayment obligations when they fall due. Credit ratings are not statements of fact or recommendations to purchase, hold or sell securities. Credit ratings do not address the suitability of securities or the suitability of securities for investment purposes, and should not be relied upon as investment advice.
- (5) Target medium-term average total return net of fees and expenses incurred by the Trust, before tax. The distribution yield over a given period may be lower than the total return in this period to the extent that the total return includes unrealised gains. Investors should review the Risk summary set out in Section 1 and Section 8 of the PDS for important information regarding Target Total Returns and the Trust's ability to achieve them. Past performance is not indicative of future results.
- (6) The KKR Credit group is comprised of KKR Credit Advisors (US) LLC, KKR Alternative Investment Management and KKR Credit Advisors (EMEA) LLP. AUM is updated quarterly in line with KKR's public filings.
- (7) This is a summary only – see section 9 of the PDS for more detail.
- (8) High Yield Bond returns represented by ICE BofA US High Yield Master II Index and are presented in USD.
- (9) Leveraged Loan returns represented by Morningstar LSTA US Leveraged Loan Index and are presented in USD.
