Portfolio Update:

- KKC delivered a +0.42% return in May. Loans outperformed High Yield bonds over the month and lower rated assets outperformed across both sectors.
- The weighted average price of the underlying KKC assets in the portfolio stood at 95.4% of par as at month end. The Yield to Maturity, which is inversely related to prices, stood at 11.3% and the current yield of the underlying assets in the portfolio was 9.8%⁽³⁾.
- European Direct Lending (EDL) had one new addition during the month; an Italian pharmaceutical company. There was also one realization, a UK car dealer management systems provider. EDL represents ~41% of KKC's portfolio invested as at month end. A case study on one of our EDL deals can be found on page 3.

Distribution Update:

- KKC declared a distribution of A\$0.0167 (8.07% of NTA) for the month. This is in line with the announced FY24 distribution estimate of A\$0.20. As of 31 May, ASX Unit Price is A\$2.35, this represents a yield of ~8.51%⁽²⁾.

Market Update:

- High Yield bonds returned +1.13%⁽⁸⁾ in May, amid strong earnings, the largest retail inflows since November 2023 and continued growth in primary market activity. Loans returned +0.94%⁽⁹⁾ in May, as prices broke two-year highs amid soaring investor demand (highest since November 2021) coupled with a growing supply shortage.

Portfolio Case Study

Company Overview

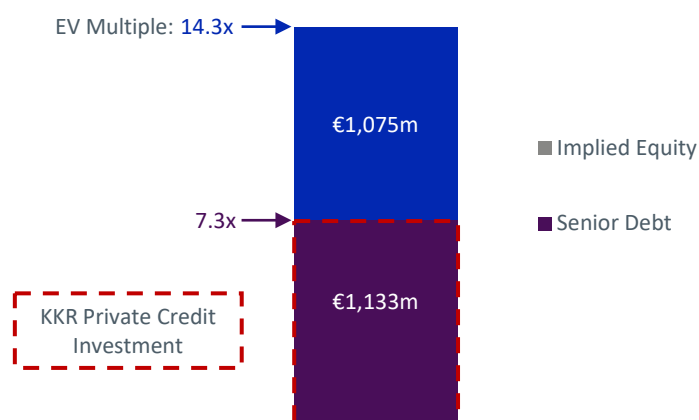

- Coop ration Pharmaceutique (“Cooper” or the “Company”) is a French integrated manufacturer and distributor of OTC (over-the-counter) pharmaceutical and healthcare products.
- Cooper mostly sells own brands within its portfolio, but also operates as a distributor for third party brands. The Company is a leading player in the French OTC healthcare market and also operates in the Benelux region, Italy, Iberia and other parts of the world.

Transaction Overview

- In 2021, KKR Credit was approached to provide financing in support of CVC’s acquisition of Cooper. The company had been put on sale by Charterhouse, who had owned Cooper since 2015.
- Cooper is in a market leading position in the structurally attractive French market. The company offers a diverse product range and the majority of sales are derived from problem-solution brands, resulting in reduced cyclical ty. The European consumer health market has grown at a steady rate for the past 15 years, and this is expected to continue, driven by trends such as growing populations and self-medication. The company has an attractive financial profile with stable gross margins and high cash conversion driven by limited capital expenditure.
- KKR Credit is familiar with the company and the OTC healthcare market, having been invested in this company since 2016. Additionally, KKR Credit recently made a similar investment in the space, further solidifying our understanding of the market.

KKR Credit Income Fund (ASX:KKC)

Monthly Investment Update: As of 31 May 2024

KKC Overview

The Trust aims to provide investors with attractive, risk-adjusted returns and access to a diversified portfolio of income generating alternative credit investments through the Trust's investment across strategies managed by the credit investment teams of Kohlberg Kravis Roberts & Co. L.P. ("KKR").

These strategies comprise the Global Opportunistic Credit strategy and European Direct Lending strategy, which seek to take advantage of the attractive opportunities that KKR sees in the market. The Trust's investment objective is to provide an income stream as well as to achieve attractive long-term capital appreciation over a full market cycle.

KKC has announced that for the financial year ending June 2024, KKC is targeting a distribution of +8.6% based on the issue NTA per unit of A\$2.3308⁽²⁾ (20.0c per year). The Trust continues to target a medium-term average total return of 6% - 8% per annum⁽⁵⁾ through the market cycle.

The Trust is appropriate for investors seeking income distribution to be used as a satellite allocation within a portfolio where the investor has a 5+ year investment timeframe and a medium to high risk/return profile. Investors should refer to the Target Market Determination ([TMD](#)) document for further information.

KKR Overview

Established in 1976, KKR is a global investment firm with industry-leading investment experience, a pioneering attitude to ESG management and a strong culture committed to teamwork.

As of 31 March 2024, KKR had A\$886.0 billion of assets under management, of which A\$356.1 billion sits within KKR Credit.⁽⁶⁾

KKR has a global presence with offices in 26 cities across 4 continents, including Sydney, Australia. KKR employs approximately 165 investment professionals in the Credit business.

KKC represents the largest pool of capital for KKR's Australian business and KKR now has three permanent members of its Client Partner Group based in Sydney. The Client Partner Group is responsible for client and market engagement across KKR's breadth of funds and strategies

Monthly Investment Update: As of 31 May 2024

Footnotes

- (1) Distribution % calculated as the distribution per unit divided by the closing NTA of the previous month. The multi period calculations sum the dividend yields received and does not compound them.
- (2) Net of fees and expenses incurred by the Trust, but before tax. The target distribution is only a target and may not be achieved. All investments are subject to risk which means you may lose all or a portion of the amount you invest or you may otherwise achieve distributions and returns that are lower than any target distribution or target return. Before making an investment decision, it is important to understand the risks that can affect the value of your investment. Investors should read the risks described in Section 8 of the PDS.
- (3) Represents KKR estimates of the yields of the portfolio's underlying assets, excluding cash, as of 31 May 2024.
- (4) Source: KKR as of 31 May 2024. Credit ratings are statements of opinion of a relevant credit agency about the likelihood of a borrower to meet its interest and principal payment and repayment obligations when they fall due. Credit ratings are not statements of fact or recommendations to purchase, hold or sell securities. Credit ratings do not address the suitability of securities or the suitability of securities for investment purposes, and should not be relied upon as investment advice.
- (5) Target medium-term average total return net of fees and expenses incurred by the Trust, before tax. The distribution yield over a given period may be lower than the total return in this period to the extent that the total return includes unrealised gains. Investors should review the Risk summary set out in Section 1 and Section 8 of the PDS for important information regarding Target Total Returns and the Trust's ability to achieve them. Past performance is not indicative of future results.
- (6) The KKR Credit group is comprised of KKR Credit Advisors (US) LLC, KKR Alternative Investment Management and KKR Credit Advisors (EMEA) LLP. AUM is updated quarterly in line with KKR's public filings.
- (7) This is a summary only – see section 9 of the PDS for more detail.
- (8) High Yield Bond returns represented by ICE BofA US High Yield Master II Index and are presented in USD.
- (9) Leveraged Loan returns represented by Morningstar LSTA US Leveraged Loan Index and are presented in USD.
